July 1, 2021  
3.00 pm CEST

## Division Spotlight Series Specialty Additives

with  
Division President Lauren Kjeldsen and  
Business Line Heads  
Coating Additives, Gaetano Blanda  
Comfort & Insulation, Ralph Marquardt  
Interface & Performance, Stefan Plass

Ladies and gentlemen,

After the successful implementation of our new division structure in 2020, we take it a step further this year: We are hosting a "Division Spotlight Series" for our three growth divisions over the first half of 2021.

Following the events on Nutrition & Care and Smart Materials, the series will be completed with the division **Specialty Additives on July 1 at 3.00 pm CEST**. This fully virtual event for financial analysts & investors is scheduled for approximately 1.5 hours.

The divisional management team will give you further insights into their division and will present the growth strategy and the most attractive growth areas.

The presentations will be followed by a Q&A session. You can place your questions anytime during this event via chat.

The registration is already open. Please register under the following link:

<https://webcast.framework.techcast.com/en/evonik/division-spotlight-series-specialty-additives>

Once you have registered, you will receive a confirmation via email including a link that leads you directly to the webcast. This is more convenient for you, as no additional log-in is necessary on the division day itself.

The presentation and documents for the event will be available on July 1 at 2.30 pm CEST (i.e. 30 minutes ahead of the event) on the IR website.

We are looking forward to welcome you.

Sincerely,

Evonik Investor Relations
