

Evonik: Executive Board plans to raise the dividend for 2015 considerably

- Targets for 2015 clearly achieved
- Plans to increase the dividend by 15 percent to €1.15 per share

Essen, January 11, 2016— The Executive Board of Evonik Industries AG resolved today – based on the provisional figures for 2015 – that it aims for a dividend for the last fiscal year in the amount of €1.15 per share. That would be an increase of 15 percent from the previous year's dividend of €1.00 per share. Contingent upon the approval of the Supervisory Board, a corresponding dividend proposal would be made to the Annual Shareholders' Meeting on May 18, 2016.

Following an initial overview of past fiscal year 2015, the Executive Board has come to the conclusion that the targets set for 2015 were clearly achieved. The Executive Board anticipates an adjusted EBITDA of around €2.4 billion for 2015, with sales of around €13.5 billion. Klaus Engel, Chairman of the Executive Board: "It is already clear that we ended the past fiscal year successfully. We would like our shareholders to participate in that. Our intention of raising the dividend is also coupled with confidence that we can shape the new fiscal year successfully."

The corresponding increase in the payout continues Evonik Industries AG's attractive dividend policy, which aims for a payout ratio of around 40 percent of adjusted net income and dividend continuity. Moreover, the high operating cash flow in the past fiscal year allows a considerable increase in the dividend without impairing the Group's ambitious growth targets. Evonik has increased the dividend by an average of 9 percent per year over the past six years, positioning it among the most attractive dividend-paying shares.
