

New adhesives and sealants industry website

May 5, 2010

Evonik Industries has launched a new website for the adhesives and sealants industry that now brings together all the information about the company's wide range of products and services online.

Customers can now quickly find the products and contact persons they're looking for by taking one of three paths: Products, Adhesive Systems, and Markets. Those who are already familiar with Evonik's brands for the adhesive and sealant industries can get in touch with the person best able to help them by referring to the Contact field.

In addition to information on the applications that are possible for the products and adhesive systems, visitors to the website can also get the latest such as product developments and trade fair dates.

The Evonik for Adhesives & Sealants Team consists of experts from the Coatings & Additives, Inorganic Materials, Performance Polymers, and Consumer Specialties Business Units. "The participating units meet regularly to share their experiences, allowing us to utilize synergies and learn from each other, but most importantly, it enables us to offer our customers the best possible solution," explains Dr. Wilfried Robers, chairman of the team and the competency area "Coating & Bonding Technologies."

The new website is accessible on: www.evonik.com/adhesives-sealants

About Evonik

Evonik Industries is the creative industrial group from Germany. In our core business of specialty chemicals, we are a global leader. In addition, Evonik is an expert in power generation from hard coal and renewable energies, and one of the largest private residential real estate companies in Germany. Our company's performance is shaped by creativity, specialization, continuous self-renewal, and reliability.

Evonik is active in over 100 countries around the world. In its fiscal year 2009 about 39,000 employees generated sales of about €13.1 billion and an operating profit (EBITDA) of about €2.0 billion.
