

## **TEGO® Twin 4100 – Wetting and Anti-cratering without Foaming**

Raise the performance of your waterborne coatings by using siloxane Gemini technology!

TEGO® Twin 4100 effectively lowers surface tension and improves wetting and flow even at very low concentrations. Its Gemini structure reduces foaming even in highly dynamic processes and application methods.

The product's good compatibility and long-term activity also impress in problematic binder systems. The solvent-free TEGO® Twin 4100 has proven itself particularly in waterborne formulations for wood and industrial finishes as well as printing inks and lacquers.

### **About Evonik**

Evonik Industries is the creative industrial group from Germany which operates in three business areas: Chemicals, Energy and Real Estate. Evonik is a global leader in specialty chemicals, an expert in power generation from hard coal and renewable energies, and one of the largest private residential real estate companies in Germany. Our strengths are creativity, specialization, continuous self-renewal, and reliability. Evonik is active in over 100 countries around the world. In its fiscal year 2008 about 41,000 employees generated sales of about €15.9 billion and an operating profit EBITDA of about €2.2 billion.
