Evonik has a growing portfolio of advanced food ingredients with proven benefits that target specific health areas. Combined with a range of nutraceutical coatings and a global team with strong formulation development expertise, Evonik supports customers in the creation of dietary supplements and functional foods that boost effectiveness and are preferred by consumers.

Evonik’s latest health ingredient is AvailOm<sup>®</sup>, a concentrated solid Omega-3 Lysine Complex. As the highest-load Omega-3 powder in its class, AvailOm<sup>®</sup> can be compressed into easy-to-swallow tablets that contain the equivalent dosage of two large fish-oil capsules. It also provides superior stability against oxidation, is easy to handle, and can be customized to meet specific formulation requirements.

### **Company information**

Evonik is one of the world leaders in specialty chemicals. The focus on more specialty businesses, customer-orientated innovative prowess and a trustful and performance-oriented corporate culture form the heart of Evonik's corporate strategy. They are the lever for profitable growth and a sustained increase in the value of the company. Evonik benefits specifically from its customer proximity and leading market positions. Evonik is active in over 100 countries around the world with more than 36,000 employees. In fiscal 2017, the enterprise generated sales of €14.4 billion and an operating profit (adjusted EBITDA) of €2.36 billion.

### **About Nutrition & Care**

The Nutrition & Care segment is led by Evonik Nutrition & Care GmbH and contributes to fulfilling basic human needs. That includes applications for everyday consumer goods as well as animal nutrition and health care. This segment employed about 8,250 employees, and generated sales of around €4.5 billion in 2017.
